MARBRE

Venetian Stucco Finish

MARBRE is ideal for interior walls and ceilings, to give a finish that looks like polished marble or granite. MARBRE is applied over a primer or base coat, from one to four layers if required. MARBRE is applied and buffed with a specialized AARKA Steel Trowel to a smooth glass-like sheen. For curved and larger areas, buffing machine can be used to ease the process.

MARBRE creates a highly polished, rock-hard, marble-like finish. MARBRE is especially useful on columns, corbels, and curved walls.

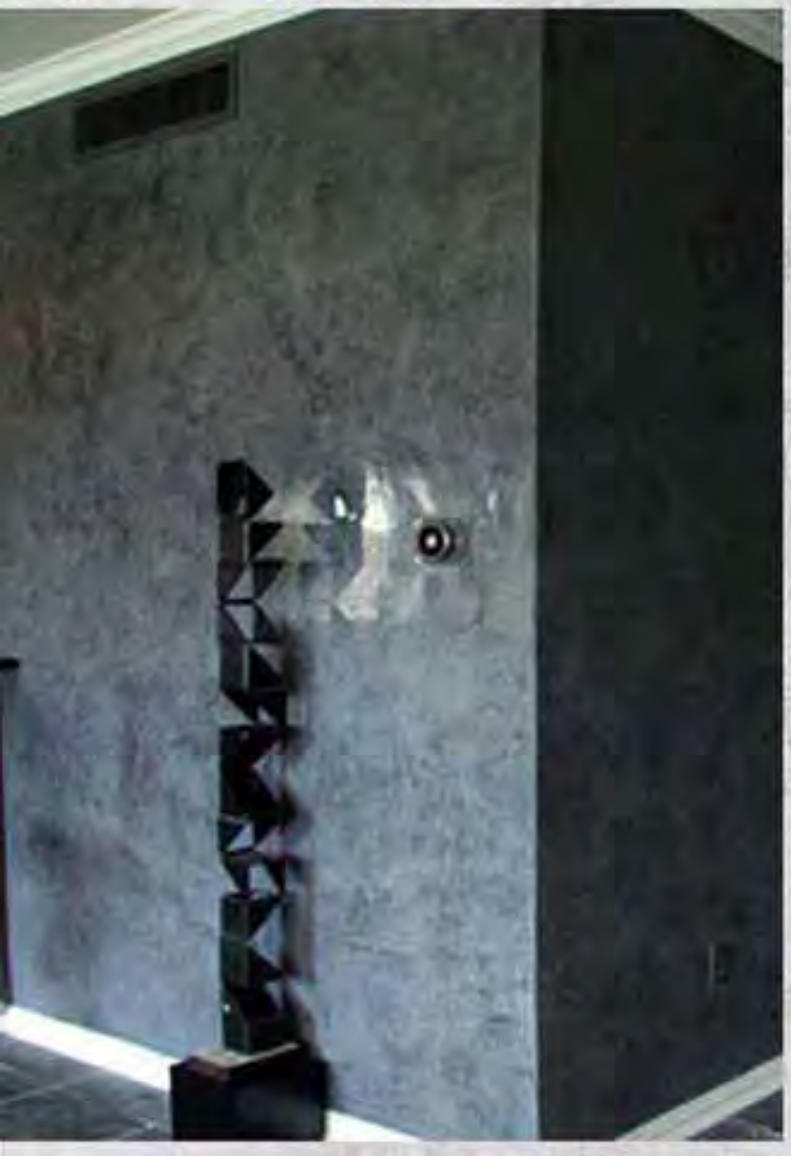

MARBRE can be tinted, or colored using universal colorants. The ability to tint MARBRE is especially helpful when a specific color of "marble" is desired.

The natural feel, texture and colors of natural marble / granite have been in vogue since the first time they were used by great empires to built cities and classical monuments. Marble and granite have been a luxury of favored few, but MARBRE breaks this barrier. MARBRE the venetian stucco closely follows the same legacy of feel, looks, textures and colors.

Its simplicity to apply and amazing finish makes MARBRE a legendary product for offices and homes. Come fall in love to the beautiful contemporary and traditional looks of MARBRE. The creative luxury bounds on limit with MARBRE, experiment with it to explore the creative side of you. MARBRE makes possible stenciling and use of multi colors to create unique, amazing wall finishes.
